## UNIQUE JACKPOT SYSTEM

When developing the jackpot system, we took into account our vast experience and therefore included an additional element of hemming in the jackpot draw, which allows the player to get even more excitement out of playing our machines.

## MOTIVATIONAL SYSTEM DAILY SPINS

DAILY SPINS (DS) is a unique system which, by analysing player behavior, awards motivational free spins. This is awarded 8 hours after the player's last activity. The system has proven its effectiveness in many markets and is our unique development. Artificial intelligence elements were used in the creation of the system, which allows the player's interests to be taken into account when creating a motivational offer.
